## Galter Health Sciences Library & Learning Center

## On-Demand Training from the NIH: Standardize Your Research with the NIH Common Data Element Repository

## The popular NIH training is now available on-demand

- Have you been awarded a grant that requires the use of Common Data Elements (CDEs)?
- Do you want to learn if there are CDEs already in existence that you can use to describe your research data?
- Do you want to learn if CDEs can help you with your NIH Data Management and Sharing plan?

The NIH is offering its popular class, <u>Standardize Your Research with the NIH Common Data Element Repository</u>, in an ondemand format. The class includes recorded videos and hands-on exercises.

The class available from the National Library of Medicine (NLM). You simply have to register for a (free) NLM account to access the content.

## Data management resources from Galter Health Sciences Library and other Northwestern units

If you're interested in other data management and sharing resources available to Feinberg researchers, there is a growing number of resources available from Galter Library, NUIT Research Computing, and Northwestern Libraries

- Check out Galter's Data & Data Management GalterGuides
- Learn more about Galter's DataLab
- Discover NUIT's Research Computing and Data Services
- Find other data finding and management guides available from NU Libraries
