Awards and Nominations

Biosciences & Bioinformatics Librarian, Pamela Shaw, received recognition for her incredible contributions to the Northwestern University community with a nomination for Northwestern University's 2017 Employee of the Year. Pamela has stepped up in many extraordinary ways over the course of her 17+ year career at Northwestern University and this commitment and dedication to Northwestern University only grows stronger. Her attention to detail, service to patrons, clever and creative problem solving, and insightful contributions have been immensely impactful to our library and to Northwestern University.

Congratulations and Welcome!

Mark Berendsen has been promoted to Deputy Director of Galter Library

In his nearly 15-year career at Galter Library, Mark has served multiple roles across several service areas, including electronic resources management, research support, and collection management. He most recently served as Head of Research and Information Services, guiding a growing team of librarians who provide innovative programs and services in a variety of domains including: clinical informationist services, bioinformatics support, systematic review services, course-integrated instruction and curriculum support, evidence-based practice and information literacy training, and the Metrics and Impact Core.

Mark will work more closely with library administration and other Feinberg stakeholders to advance key initiatives in the library and on campus. As Deputy Director, Mark will maintain day-to-day responsibility for library functions and work with the leadership team on strategic planning, faculty and staff recruitment, procedure and policy development, and championing an engaged, inclusive, and collaborative environment for all. He will be involved in library-wide planning, budgeting, facilities, and staffing decisions at a time of continued growth and opportunity at Galter. Congratulations, Mark!

Patty Smith will transition to a new role at Galter Library as Impact and Dissemination Librarian

Patty has served as a Research Librarian at Galter Health Sciences Library since 2015 and is excited to transition into this new position. Her professional interests include scientific writing and navigating the publishing and dissemination process. She's been active in providing trainings on these topics on campus; she offered a Scientific Writing Seminar Series on campus in June 2017, and she organized a Dissemination, Impact and Access Workshop on campus in July 2017. In this new role, Patty hopes to build on the success of these workshops and develop new resources and seminars to build a robust support system for stakeholders across the university, with the goal of streamlining the research dissemination process and taking the guesswork out of impact and evaluation. Patty is thrilled to work with colleagues across campus in a new capacity and support the efforts of the Metrics and Impact Core. Congratulations, Patty!

Brett Cimbalik joins Galter as the new Borrowing Lead in Interlibrary Loan

Brett will manage all of the Document Delivery requests from our patrons for items from both our print and electronic collections as well as any requests for items we don't own. His last position was at Columbia University where he was a Bibliographic Assistant in the Preservation and Digital Conversion Division. Before that he worked in Interlibrary Loan at Columbia University and also as a paraprofessional in outreach services at the Ypsilanti District Library. Welcome aboard, Brett!
