

Two Part Workshop on Search for Evidence and Documentation

Join Galter Health Sciences Library and Learning Center for a two-part interactive workshop this Spring. Participants will gain knowledge and actively participate in the multi-step process of crafting a thorough search strategy for systematic and scoping reviews. The workshop will demonstrate effective methods for searching diverse information sources and preparing the necessary documentation for the final manuscript. Faculty, staff, students, and researchers are invited to attend.

Prerequisite Classes and Trainings:

- [PubMed](#)
 - Conducting a Systematic Review: [Part 1](#) — Planning the Process or [Conducting a Scoping Review](#)
 - Conducting a Systematic Review: [Part 2](#) — Tools & Resources (also applicable to scoping reviews)
 - [Module 1: Foundations of MeSH in MEDLINE](#)
-

Register for the Two-Part Interactive Workshop:

- Conducting Systematic and Scoping Reviews: Search Development and Documentation — Part 1, Wednesday, March 13, 2024, 12-1 p.m. via Zoom. [Registration required](#)
 - Conducting Systematic and Scoping Reviews: Search Development and Documentation — Part 2, Wednesday, April 12, 2024, 12-1 p.m. via Zoom. [Registration required](#)
