FAQ

Why don't I see all my older requests when I look at my request history?

From time to time we purge older records from the Interlibrary Loan system. Our policy is to keep requests online for several years in order to comply with record keeping requirements of the copyright law.

How long can I check out an ILL book?

Each lending library sets its own due dates - they are usually at least 4 weeks after the library sends the book or microfilm to NU.

Are there any restrictions, like "no renewals" or "in library use only," for ILL items?

There may be restrictions placed on items by the lending library. These will be noted on the item itself and be strictly observed.

How do I renew an ILL book?

If the lender allows renewals, we can either send the renewal request on your behalf or you can place one yourself.

- To place a renewal request yourself, login to your ILL account, click on the transaction number for the book listed under your "Checked Out Items," and then click on the "Renew Request" text that appears in the upper-left section of the page.
- To have us place a renewal request on your behalf, contact us by email or phone and we will send a request to the lender.

The lender has the option to deny or approve the request. When we then hear back from the lender, we will send you an email to let you know the status of the renewal request.

What about copyright?

Whenever possible, we provide electronic copies of articles. Most documents will be in PDF format. There are times, however, that due to lender restrictions, size, image intensity, or quality we will provide them in paper format.

There also may be copyright restrictions with articles and other electronic documents obtained through ILL. The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement. This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve violation of copyright law.
