Clinical Informationist Service

Did you know that you could have a librarian join you on rounds? The library has two clinical informationists who bring the resources and services of the Galter Library to you. We can help answer clinical questions generated as a part of patient care discussions. To explore options for a clinical informationist to join your team on rounds, email Jonna Peterson, Senior Clinical Informationist at jonna.peterson@northwestern.edu or Corinne Miller, Clinical Informationist at corinne.miller@northwestern.edu.
