Hello there!! My name is Jonna and I’m the Senior Clinical Informationist here at the Galter Library. What is a clinical librarian, you ask? My work is primarily done on the units in the hospital by participating in clinical meetings, attending rounds, and helping to assist the faculty, residents, and students in answering clinical questions. You may see me tagging along with one of the Medicine teams on Galter 13. I’m also a liaison to the groups you see listed below. If you are a member of the department or divisions on this list, feel free to give me a ring or send me an email should you need any assistance.

**Liaison Groups**

I am the liaison to the [Department of Medicine](#) and its divisions, the Heart Institutes (including the Bluhm Cardiovascular Institute, Feinberg Cardiovascular Research Institute, Center for Kidney Research and Therapeutics, Center for Molecular Cardiology, the Center for Vascular and Developmental Biology), the Center for Clinical Research, Center for Food Allergy and Asthma Research, Center for Health Information Partnerships, Center for Primary Care Innovation, and Center for Translational Metabolism and Health.

- Division of Allergy/Immunology
