

World Map of Citations

Dr. Kretschmer's works have been cited over 845 times by authors from 35 countries in 7 languages, including English, German, French, and Spanish. This map visualizes the global influence and reach of his work. The intensity of blue color indicates more authors from that country have cited his work.

This visualization is based on 778 citing documents of the 133 works by Dr. Herman Louis Kretschmer in Thomson Reuter's Web of Science. The visualization was created on Nov. 25, 2015 using the Sci2 tool (cns.iu.edu) based on the Eckert IV project map of 209 countries of the world. The number of citing authors is colored on a logarithmic scale.
